

# APPLICATION EXAMPLE

SMALL/MEDIUM SIZED RESTAURANT

SUPPORT DATA

## APPLICATION

Small/Medium Sized Restaurant

## OBJECTIVE

A discreet background audio system offering higher SPL's in the main bar area and balanced SPL's in the seating areas.

## CUSTOMER REQUIREMENT

- ▶ Multi-input 2-zone PA system
- ▶ Aesthetically pleasing customer facing equipment
- ▶ Higher SPL in the main bar area
- ▶ System control from behind the bar area
- ▶ Ease of use for all staff members
- ▶ Wireless audio streaming capability

## PRODUCT SOLUTION

**4FW50T**  
6x 4" Wideband loudspeakers for the seating areas

**6FP100T**  
2x 6.5" 2-Way loudspeakers for the bar area

**8SM300T**  
1x Dual 8" subwoofer in the bar area

**4SDL160**  
2x 4-Channel amplifier

**PAA42**  
1x Multimedia player

## CONCEPT

6 Wideband 4" loudspeakers provide ample and even distribution of the background source material suspended by the (optional) fly bracket. 2 Larger 6.5" 2-way loudspeakers suspended by the (optional) VESA bracket coupled with a compact 2x8" subwoofer mounted towards the ceiling using the included bracketry, offers powerful audio playback in the main bar area.

The loudspeakers are powered by a pair of 4 channel amplifiers fed by a fully-featured media player including wireless audio streaming, multiple microphone inputs and dual master outputs.
